

# DOUBLE SEEDS STRAIN GUIDE

UPDATED MARCH 2024

# RS11

AKA RAINBOW SHERBERT, A MIX OF (ZKITTLEZ x OGKB) x PINK GUAVA

## STRAIN SPEC

**Genetics:** (Zkittlez x OGKB) x Pink Guava.

**Type:** Feminised.

**THC:** 24%.

**Indica/Sativa:** Indica/Sativa Mix.

**Flowering Time:** 65 Days.

**Indoor Yield:** 475 gr/m<sup>2</sup>.

## DESCRIPTION

RS11, also known as Rainbow Sherbet, is a hybrid strain created by crossing (Zkittlez x OGKB) with Pink Guava.

This combination results in a robust, bushy plant with strong resistance to mould and a highly potent terpene profile. The plant grows into a compact canopy supported by conic-shaped calyces and covered in a dense layer of trichomes.

Its parentage gives off intense aromas of OG gas, sweet Zkittlez, and Cookie notes from the Pink Guava.

This strain typically yields 450–500g/m<sup>2</sup> and has a 9-week flowering cycle in all types of environments and climates.

# THE BULK

THE BULK PROVIDES VERY HEAVY YIELDS OF LARGE FLOWERS

## STRAIN SPEC

**Genetics:** Big Bud x Super Skunk x Green Spirit.

**Type:** Feminised.

**THC Levels:** 24%.

**Sativa/Indica Mix:** Indica 80% - Sativa 20%.

**Flowering Time:** 56 Days.

**Indoor Yield:** 600 - 1000 gr/m<sup>2</sup>.

**Outdoor Yield:** 800+ gr/plant.

## DESCRIPTION

The BULK boasts impressive genetics and robust flowers. This hybrid, dominant in Indica, is a blend of Big Bud, Super Skunk, and Green Spirit.

Following in the footsteps of Big Bud, The BULK produces large yields of massive flowers. The dense, tightly-packed leaves of The BULK give its nuggets an Indica structure, while the glistening white trichomes add a vibrant touch and contribute to its potent effects.

It is known for its ease of cultivation, withstanding temperature fluctuations and variations in nutrient levels.

The BULK only takes 8 weeks to flower when grown indoors yet produces a remarkably high yield. After curing, The BULK's buds emanate a distinct musky, earthy scent.

# BANANA GLUE

A REFINED INDICA DOMINANT STRAIN WITH 25% THC LEVELS

## STRAIN SPEC

**Genetics:** Strawberry Banana x Gorilla Glue.

**Type:** Feminised.

**THC:** 25%.

**Indica/Sativa:** Indica 70%/Sativa 30%.

**Flowering Time:** 56 Days.

**Indoor Yield:** 700 gr/m<sup>2</sup>.

**Outdoor Yield:** 600 gr/plant.

## DESCRIPTION

Banana Glue is a combination of Strawberry Banana and Gorilla Glue. This well-crafted hybrid is a prime example of a refined Indica.

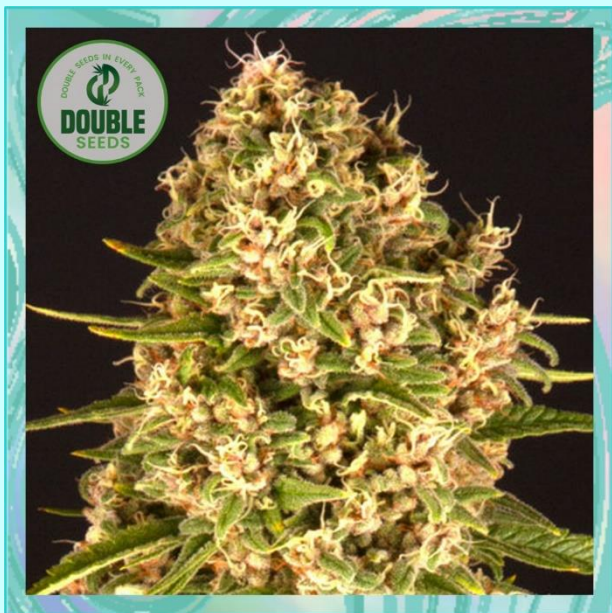

With a potency of approximately 25% THC, Banana Glue has a sweet and fruity flavour and provides a robust smoke.

When grown indoors, it can yield around 700 grams per square meter after 8 weeks of flowering. Banana Glue is a low-maintenance plant with a medium to tall height and boasts many side branches that are covered in dense buds.

The effects of Banana Glue are similar to those of Indica, providing a motivating and social experience without causing drowsiness, making it perfect for daytime use.

# MIMOSA X ORANGE PUNCH

A FAST-GROWING PLANT WITH A DELICIOUS CITRUS AROMA

## STRAIN SPEC

**Genetics:** Mimosa x Orange Punch.

**Type:** Feminised.

**THC:** Up to 30%.

**Indica/Sativa:** Indica 65%/Sativa 35%.

**Flowering Time:** 56 - 63 Days.

**Indoor Yield:** 700 gr/m<sup>2</sup>.

**Outdoor Yield:** 1000 gr/plant.

## DESCRIPTION

Mimosa x Orange Punch Seeds produce a fast-growing plant with a delightful aroma of citrus and tangerine sweetness.

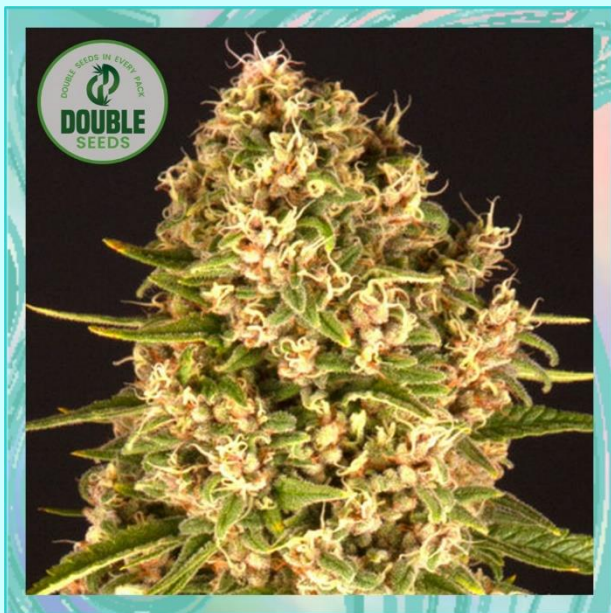

These Feminised seeds produce a compact plant that still yields high-quality buds.

The plant's stunning shades of purple make it a rare and beautiful sight, even for experienced growers. With multiple large and resinous buds covered in bright orange hairs and trichomes, Mimosa x Orange Punch is a sturdy and resilient plant.

Indoor growers will love its quick 8-9 week flowering period, producing up to 700 g/m<sup>2</sup>. When it's time to harvest, the delicious citrusy and candy-like aroma becomes even more prominent, making it a truly enjoyable strain.

# BLUE CHEESE

## INDICA DOMINANT CREATED FROM BLUEBERRY AND CHEESE

### STRAIN SPEC

**Genetics:** Blueberry x Cheese.

**Type:** Feminised.

**THC:** 18%.

**Indica/Sativa:** Indica 80%/Sativa 20%.

**Flowering Time:** 65 Days.

**Indoor Yield:** 500 – 550 gr/m<sup>2</sup>.

**Outdoor Yield:** 600 gr/plant.

### DESCRIPTION

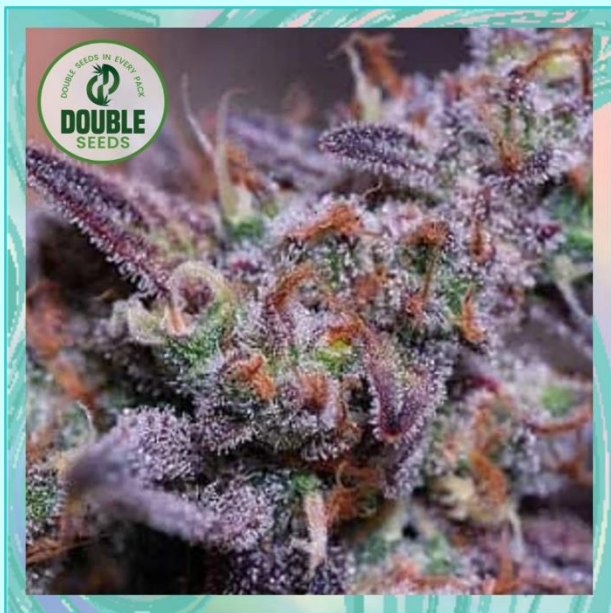

Blue Cheese Feminised cannabis seeds are a top quality Indica cannabis strain, easy to grow with great yields.

Blue Cheese seeds produce a short stocky plant which has strong side branches that develop heavy sticky colas.

The cheese flavours are softened by the sweet blueberry after taste making Blue Cheese an awesome choice for Indica lovers.

# BLUE KUSH

HIGH THC CROSS OF BLUE MOONROCK AND BLACKBERRY KUSH

## STRAIN SPEC

**Genetics:** Blue Moonrock x Blackberry Kush.

**Type:** Feminised.

**THC:** 30%+.

**Indica/Sativa:** Indica 80%/Sativa 20%.

**Flowering Time:** 56 – 63 Days.

**Indoor Yield:** 550 gr/m<sup>2</sup>.

**Outdoor Yield:** 650 gr/plant.

## DESCRIPTION

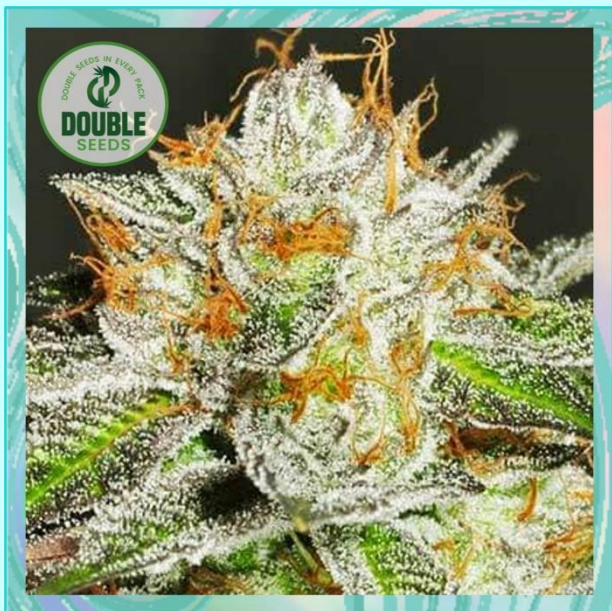

Blue Kush cannabis seeds are an exciting cross of Blue Moonrocks and Blackberry Kush.

Blue Kush has mind blowing 30%+ THC levels and brings together two unique terpene profiles to create a lavender, blueberry and blackberry aroma with a citrus zing.

Blue Kush buds come dense with big sticky trichomes and offer up a calming high that will put you into a blissful mood.

# BRUCE BANNER

**LARGE AND RESINOUS BUDS WITH AN INTENSE AROMA OF FRUITS AND DIESEL**

## STRAIN SPEC

**Genetics:** Ghost O.G. x Strawberry Diesel.

**Type:** Feminised.

**THC:** 25%.

**Indica/Sativa:** Indica 40%/Sativa 60%.

**Flowering Time:** 56 – 70 Days.

**Indoor Yield:** 800gr/m2.

**Outdoor Yield:** Up to 1000gr/plant.

## DESCRIPTION

Bruce Banner cannabis seeds are a Sativa/Indica hybrid originating from a cross between Ghost OG and Strawberry Diesel, resulting in vigorous and well-branched plants that readily adapt to both indoor and outdoor cannabis cultivation.

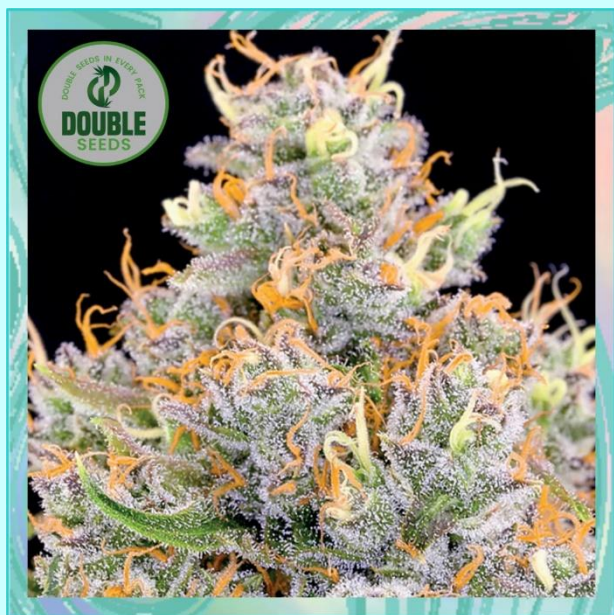

Bruce Banner is characterised by its generous production of large and resinous cannabis flowers with an intense aroma, combining notes of red fruits on a Diesel background.

The effect of Bruce Banner is an intense and euphoric high thanks to the high levels of THC.

# GORILLA GLUE X STARFIGHTER

SERIOUSLY STRONG, HIGHLY POTENT – CAUTION THC 30%+

## STRAIN SPEC

**Genetics:** Gorilla Glue x Starfighter.

**Type:** Feminised.

**THC:** 30%+

**Indica/Sativa:** Indica 50%/Sativa 50%.

**Flowering Time:** 63 – 70 Days.

**Yield Indoors:** 500gr/m<sup>2</sup>.

**Outdoor Yield:** Up to 1000gr/plant.

## DESCRIPTION

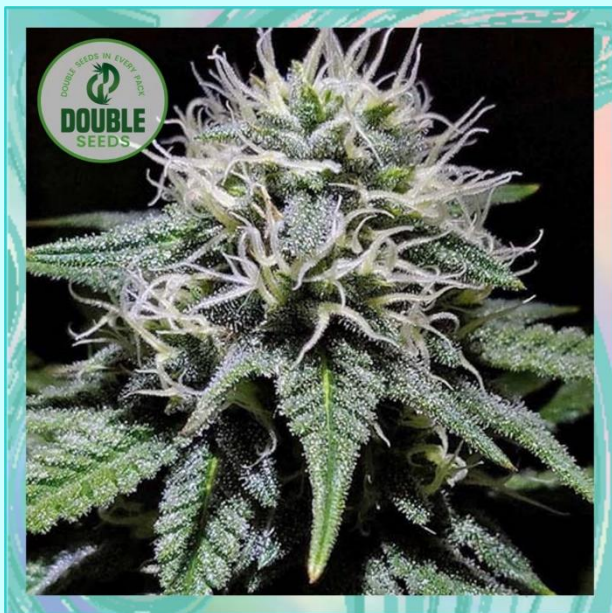

Gorilla Glue x Starfighter cannabis seeds provide strength and an intense pineapple aroma accompanied by a strong note of mango.

Gorilla Glue x Starfighter is a highly potent hybrid whose effects start quickly, providing a stimulating, strongly euphoric high that also has psychedelic elements and expands the senses.

The flowers reach an amazing size and density, piling up a thick glittering layer of resins on their surface which is a result of the enormous resin production.

# GORILLA ZKITTLEZ

## AN AMAZING FUSION OF GORILLA GLUE 4 & ZKITTLEZ

### STRAIN SPEC

**Genetics:** Gorilla Glue x Zkittlez.

**Type:** Feminised

**THC:** 24%.

**Indica/Sativa:** Indica 60%/Sativa 40%.

**Flowering Time:** 56 – 63 Days.

**Indoor Yield:** 500 to 700gr/m2.

**Outdoor Yield:** Up to 1000gr/plant.

### DESCRIPTION

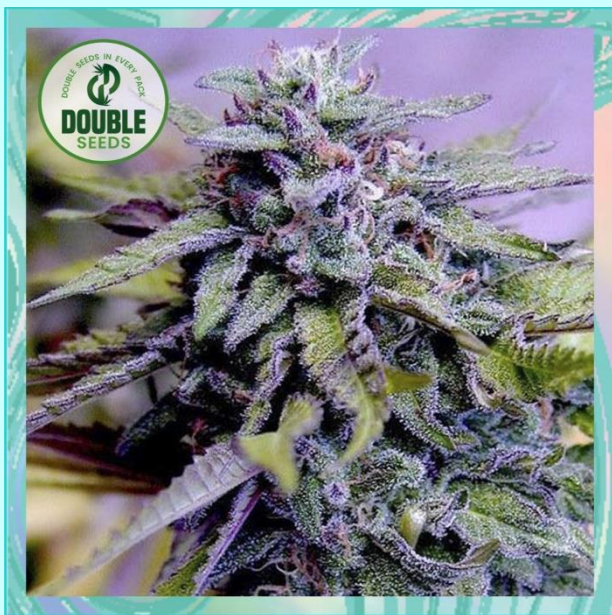

Gorilla Zkittlez cannabis seeds create an exquisite trichome celebration following around 60 days in bloom.

Leaning toward the Indica side of the cannabis spectrum, this emerging favourite is a powerful and thought-provoking beauty with trichome-laden glistening pistils.

Gorilla Zkittlez 24% THC will seduce you into a warm realm of rest and relaxation that you will never want to leave.

# GRANDDADDY PURPLE

INDICA DOMINANT CROSS OF BIG BUD AND PURPLE URKLE

## STRAIN SPEC

**Genetics:** Big Bud x Purple Urkle.

**Type:** Feminised.

**THC Levels:** 20% - 23%.

**Indica/Sativa:** Indica Dominant.

**Flowering Time:** 63 Days.

**Indoor Yield:** 500 g/m<sup>2</sup>.

**Outdoor Yield:** 200 gr/plant.

## DESCRIPTION

Granddaddy Purple cannabis seeds (AKA Grand Daddy Purps) produces beautifully oversized crystal encrusted purple flowers with a heady grape aroma and berry taste.

Granddaddy Purple Feminised is the image of its parents two best qualities, the deep and dark purple hue from Purple Urkle and the overgrown, dense buds of Big Bud.

The effects of this cannabis plant are instant, hitting the mind and body with a wonderful euphoria and the deep relaxation of every cell in your body.

# QUICK BUD

## CRITICAL BILBO FAST VERSION – FAST FLOWERING IN 7 WEEKS

### STRAIN SPEC

**Genetics:** Critical Bilbo x Critical Auto.

**Type:** Feminised.

**THC Levels:** 20%.

**Indica/Sativa:** Indica Dominant.

**Flowering Time:** 49 Days.

**Indoor Yield:** 450 g/m<sup>2</sup>.

**Outdoor Yield:** 400 gr/plant.

### DESCRIPTION

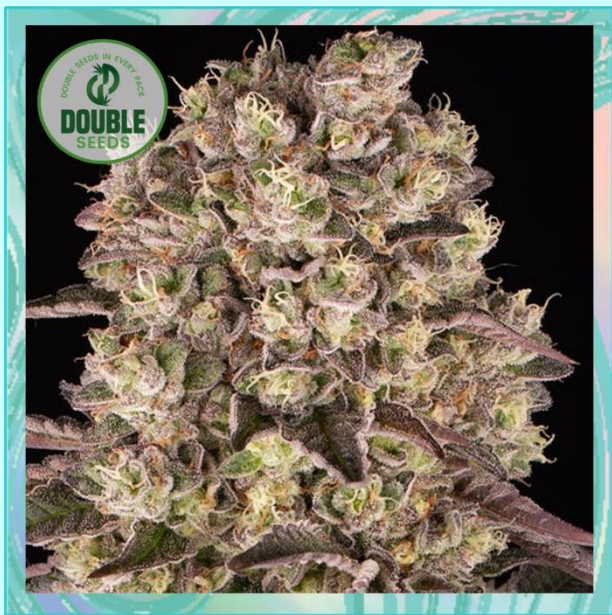

Quick Bud is an Indica dominant fast flowering strain from Critical Bilbo Fast Version, a legendary strain from Bilbao, Spain.

Quick Bud has many different flavours including a sweet, fruity and woody taste and its effects are happy, relaxing and physical.

If you are looking to be social, uplifted, and find relief from your daily routine, the fast-flowering Quick Bud is a perfect pick.

# RUNTZ

## INDICA DOMINANT FRUITY FUSION OF ZKITTLEZ AND GELATO

### STRAIN SPEC

**Genetics:** Zkittlez x Gelato.

**Type:** Feminised.

**THC:** Up to 25%.

**Indica/Sativa:** Indica Dominant.

**Flowering Time:** 65 Days.

**Indoor Yield:** 450 to 500gr/m<sup>2</sup>.

**Outdoor Yield:** 500gr/plant.

### DESCRIPTION

Runtz cannabis seeds is one of the new USA fruity flavoured cannabis strains and has quickly become a best seller.

Developed from Zkittlez and Gelato, Runtz has great flavours, awesome effects, good yields and up to 25% THC.

With a sweet and fruity aroma, the effects are powerful, balanced, psychedelic, euphoric and relaxing.

# STARDAWG

AKA "STARDOG" A SUPER STRONG CROSS OF CHEMDAWG 4 & TRES DOG

## STRAIN SPEC

**Genetics:** Chemdawg 4 x Tres Dog.

**Type:** Feminised.

**THC:** 24%.

**Indica/Sativa:** Indica 10%/Sativa 90%.

**Flowering Time:** 56 to 63 days.

**Indoor Yield:** 550 to 700gr/m<sup>2</sup>.

**Outdoor Yield:** 800gr/plant.

## DESCRIPTION

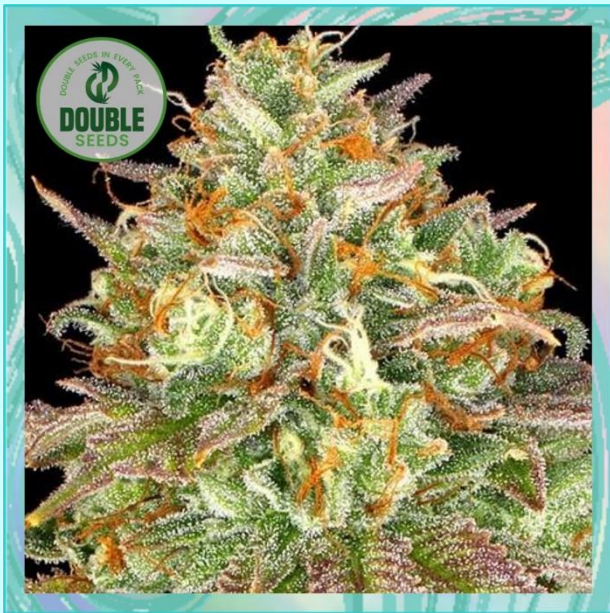

Stardawg cannabis seeds produce dense, small to medium sized, popcorn shaped buds which have a potent effect that can last up to 3 hours.

Stardawg produces bright green Nugs with fiery orange hairs that have an earthy pine aroma with hints of diesel and lemon.

This strain offers a powerful uplifting Sativa high that leaves you feeling energetic and giggly accompanied by a mellow relaxing body feeling.

# WEDDING CAKE

INDICA DOMINANT STRAIN FROM GIRL SCOUT COOKIES & CHERRY PIE

## STRAIN SPEC

**Genetics:** Girl Scout Cookies x Cherry Pie.

**Type:** Feminised.

**THC:** 20 – 23%.

**Indica/Sativa:** Indica Dominant.

**Flowering Time:** 65 Days.

**Indoor Yield:** 450 – 500 gr/m<sup>2</sup>.

**Outdoor Yield:** Up to 500 gr/plant.

## DESCRIPTION

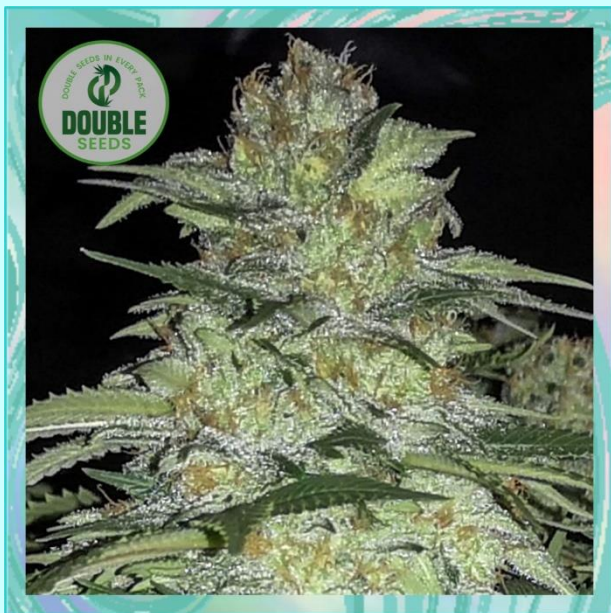

Wedding Cake cannabis seeds produce a top quality Indica strain which gets its power from Girl Scout Cookies.

The taste of Wedding Cake Feminised is a perfect combination of sweetness of cookies and fruitiness of a cherry pie.

Wedding Cake gets its name as the plant is smothered with THC crystals which give it a vanilla frosting appearance like an iced wedding cake.

# WHITE WIDOW X BIG BUD

INDICA DOMINANT STRAIN FROM TWO LEGENDARY FAVOURITES

## STRAIN SPEC

**Genetics:** White Widow x Big Bud.

**Type:** Feminised.

**THC:** 20%+.

**Indica/Sativa:** Indica 60%/Sativa 40%.

**Flowering Time:** 56 Days.

**Indoor Yield:** 600 – 700 gr/m<sup>2</sup>.

**Outdoor Yield:** 350 – 500 gr/plant.

## DESCRIPTION

White Widow x Big Bud cannabis seeds are an easy, quick-to-harvest, productive, potent cannabis strain.

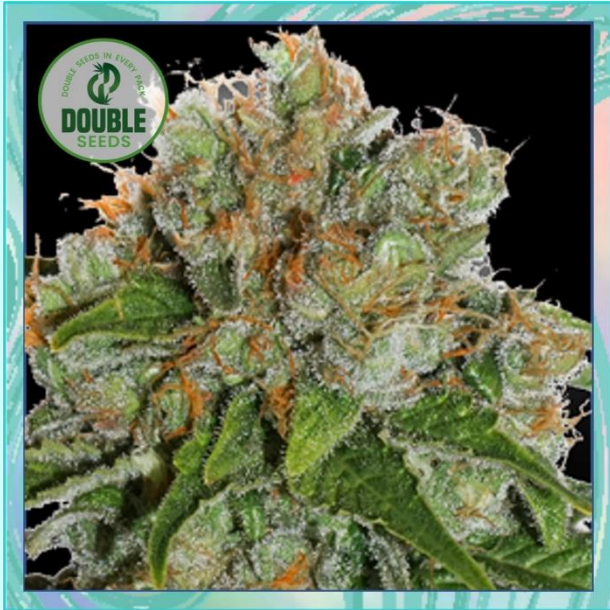

White Window and the Big Bud have been bred separately as stable, hardy strains and then bred together as a double hybrid for one of the best strains ever for indoor growers.

The buds of White Widow x Big Bud produce high volumes of sticky resin and the potency of the flowers means that their aroma is also quite strong especially when they are at the flowering stage.

# AMNESIA AUTO

## HIGHLY POTENT AUTO FROM AMNESIA HAZE

### STRAIN SPEC

**Genetics:** Amnesia x Ruderalis.

**Type:** Auto Feminised.

**THC:** 25%.

**Indica/Sativa:** Sativa Dominant

**Flowering Time:** 77 - 84 Days.

**Indoor Yield:** 400 - 650 gr/m<sup>2</sup>.

**Outdoor Yield:** 100 - 200 gr/plant.

### DESCRIPTION
